

# PHARMACISTS STEPPING UP

THANK YOUR PHARMACIST DAY!

THURSDAY  
13 MARCH  
2025

OVER  
**40,000**

pharmacists are practising across community pharmacies, hospitals, aged care, general practice and as independent consultant pharmacists

The average Australian visits their local pharmacy

**18 times**  
each year

Pharmacists are **medicine experts**, and one of the most trusted health professionals

Pharmacists deliver OVER  
**2 million**  
influenza vaccines every year

**250,000**

Australians are hospitalised each year due to medicine problems, with an annual **cost of nearly \$1.4 billion**. At least half of this harm could have been prevented with pharmacist expertise

ON AVERAGE

**4 medication-related problems**

are detected for each person who has a Home Medication Review, the majority of which can be resolved

**Pharmacists are here to help** – ask us about your medication!
